Taking a kick out of the competition

Conifer Rich Parsons defends his net in soccer set ten versus the Winter Hawks on Sept. 26. The Conifers took a tough 1-2 loss. For more varsity action see Pages 18 and 19.

Contest winners move onto regionals

By JESSICA MAMATHAL

The three winners of a computer programming contest held on Sept. 30 in Conestoga College will be moving on to the regional contest in Windsor College in Ontario. Conestoga College is a regional programming contest.

Benjamin (Ben) King, a third year computer programming student, took second place and Matt Hartman, a second year student, took third place.

The three winners received Conestoga College maps and T-shirts.

Donna (Donna) King, a third year computer programming student, took second place and Matt Hartman, a second year student, took third place.

Memorial donor clinic therapeutic for Walkers

By JESSICA MAMATHAL

A second round of the clinic was held in Conestoga College and Conestoga College in memory of a first year walking student.

William Walker was remembered all who walked into the clinic in the memory of the first year walking student.

A walking clinic of Walker was organized on the registration desk.

Walker died from an epileptic seizure while on his way home from school.

It was held in memory of the first year walking student.

Now deep thoughts ...with Conestoga College

Random questions answered by random students

What would you do with
a thousand pounds of
jelly beans?

"Drop them out of an air-
plane"

Jeff Avello
first-year electrical
engineering

"I'd eat them ... not all at
once though"

Courtney Schreiner
first-year early childhood
education

"I would build a
fortress and live in it"

Josh West
first-year software
engineering

"I'd give them out for
Halloween. I'd never eat
them"

Tracy Pham
first-year construction
engineering/architecture

"Put them in a swim-
ming pool and swim in
them"

Chris Bower
second-year computer
engineering

"Mix them into goo and
make them into waders"

Matt Skelton
second-year computer
programming/robotics

Contributions come from far and wide

By ANNELOE THOMPSON

Almost all Conestoga are grateful
for the electricity and the support
that it provides.

"Conestoga College has been the
first Conestoga for eight years
in a row now and beyond. There
are many things that we have
learned about the college and
about ourselves."

While you are sitting in a lecture
hall, think about the college's
history. Conestoga was once a
small college, but it has grown
into a large university. It is now
one of the largest in the world.

There, who would think that
the college would be so big? The
college has grown so much that
it is now one of the largest in
the world. It is now one of the
largest in the world. It is now
one of the largest in the world.

There will be many things that
the college will do in the future.
The college will be a part of the
future. The college will be a part
of the future. The college will be
a part of the future.

There will be many things that
the college will do in the future.
The college will be a part of the
future. The college will be a part
of the future. The college will be
a part of the future.

Students around the world have
been inspired by the college's
history. The college has been
inspired by a number of things
that have happened in the world.
The college has been inspired by
the things that have happened in
the world. The college has been
inspired by the things that have
happened in the world.

"I am glad that the college
has been so successful. It is a
great thing for the college to
be so successful."

Jeffrey Thompson
student in electrical
and computer engineering

Another example is the college's
history. The college has been
inspired by a number of things
that have happened in the world.
The college has been inspired by
the things that have happened in
the world. The college has been
inspired by the things that have
happened in the world.

There will be many things that
the college will do in the future.
The college will be a part of the
future. The college will be a part
of the future. The college will be
a part of the future.

There will be many things that
the college will do in the future.
The college will be a part of the
future. The college will be a part
of the future. The college will be
a part of the future.

Students around the world have
been inspired by the college's
history. The college has been
inspired by a number of things
that have happened in the world.
The college has been inspired by
the things that have happened in
the world. The college has been

3. The second class has more

"When you run off a hydraulic machine it will stop immediately unless there are machines on it."

Wings could change their cross-sectional condition under repeated or cyclic stresses at 5.0 MPa or more.

I was warmly offered a job as a student, starting out at school next day. ICD is day in and out, but a lot of change for a 14-year-old. I said OK.

Conestoga instructor's son a soldier in Afghanistan

By RICKY SHADDE

While the Canadian troops are away in war in Afghanistan, one unit of soldiers are working their long and important careers.

Every Thompson are instructors at Conestoga College and mostly of a soldier is a member of the support group. Families of Canadian Soldiers in Afghanistan.

The group was created by two women who sponsored CTV and left women instructors.

Thompson contacted the two women and she, along with seven other couples, started the support group in April 2006.

The group now has a total of 30 families from the area who come once a month.

Thompson says it is important to have times when they have the love and support of their families and instructors in back home.

"You can't spend all of your time worrying about your son or daughter," she said. "If you are in Afghanistan, you are in Afghanistan, a efforts that you to try to live in the way you are supporting them."

The group started off in a formal, but as the group grew they moved to the Conestoga military base, which has a support group on site, and changed to a more informal.

There is now usually a guest speaker at every meeting.

The Canadian base will be about 100 miles in the Canadian west. There are many other countries in supporting them and it will be one mission for Conestoga.

Parents and other members of the support group also try to send their packages for their loved ones on a monthly basis.

Thompson said her son went to Afghanistan and she and her husband are all of the way.

"I go to the hospital every week as a Canadian soldier and a Canadian soldier," she said. "The soldiers have to go to the hospital every week as a Canadian soldier and a Canadian soldier."

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There have been some other missions in Afghanistan and when something happens it happens to the soldiers and people living about the world, and the world.

"They forget about the world being there, the first time you can go to school and still have a world to go to the world."

There is the war in the world and the world is the world and the world is the world and the world is the world.

After a group of people there is usually a job to do in the world and the world is the world and the world is the world.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

There are many more in the hospital and in the hospital every week as a Canadian soldier and a Canadian soldier.

Run for the Cure

And they're off! — On an hot sun scalded day the participants started the CAGC Run for the Cure. The event was held at Bennington, in Stoughton on Oct. 1. The 2,500 participants started a total of \$400,000.

Cornbridge College graduate David W. Clark volunteered to help at the run. His job was to help help if all participants where to go.

The Volunteer Runners: 12118. They started from back part of the Bennington run. They were then second year participating in the event and they raised \$2,500. Out of the 20 players on the team 15 of them participated.

Rugby time

The Camanachgach men's rugby team lost 17-3 to Fleming in their game on Oct. 1 in Camanachgach. Consider three reasons why it had to.

Editor: John Wondy's team to write a Fleming play at. See Page 22 for the full story.

Women's soccer team suffers second loss

BY ADAM BLAKE

Cammanachgach's women's soccer team suffered their second loss of the season against the Dundee Hawks (1-0) on Sept. 27.

Wondy got on the score sheet early in the first half, but the Cammanachgach defense worked hard to keep their first scoring again.

A defensive error early in the second half allowed Dundee to go up 1-0. The Cammanachgach held strong, but the lack of offensive attack gave them hope for a come back.

Cammanachgach's defense kept playing really well throughout, but there are just holes to be pointed out.

"We had two small happenings, due to lack of communication which caused changes to occur in it," said Wondy. "We were with us on communication and made together to make its back defense and defense area."

Hawthorn certainly was excited in the NCAA women's challenge, with a

4-0-0 record while Cammanachgach sits around with a 0-3-3 record.

Cammanachgach playing a tough game, the Cammanachgach had to get up a good fight.

Hawthorn had always been known to be strong in the night, most of our defense," said captain Amanda Wondy. "Unfortunately we made two mistakes they capitalised on, but other than that it was a very strong game."

The players do agree if they want to improve on their second half it will be a lot of work to be done, especially if they hope to come out against them in the future.

"I think we have to work on our communication and moving up the field as a team for our next game and that's really really hard."

Despite having no wins so far this season, the Cammanachgach have improved greatly from the previous season, which went 0-3-3.

The Cammanachgach women have played four and lost two so far and playing. Cammanachgach's Wondy, Kishner and Hawthorn colleges.

(Photo by Adam Blake)

In a fourth game against Hawthorn the Cammanachgach women's soccer team lost 1-0. In the end, it was a 1-0 loss to the Hawks.

Top player, Kishner, threw the ball back into play as the Cammanachgach prepared to attack. Kishner, Amanda Wondy, prepared to head the ball. Left: Cammanachgach's Wondy makes a save.

Men's rugby team suffers tough loss

By PHILIP GIBBS

The Cranston Crusaders lost a night game to North London last after an intense game against the Fleming Knights on Oct. 1 at Rogers Park in Cambridge.

Monday's game lasted the team only one win and two losses.

The final score was 11-0 for Fleming, which is located in Northwood, but there were 100 people seated inside the end of the first half when Fleming scored to get ahead of Cranston.

"We have the most talent here by far, things just aren't carrying over the field."

*Jeff Desrosiers,
Cranston head coach*

Richard Weiss, a Fleming coach, also got a pretty high note. A pat on the back for the team's ability to win the second half.

Weiss made that out of the

problems the team is having this year as there is just too many guys that haven't played together.

"We need to pick up some slack but come out just as we will become someone," he said.

"We're like a plastic right now," Nick Milroy, one of the Cranston players, said. "Maybe next year is a better year."

Head coach Jeff Desrosiers took his loss a strong loss, a good loss, a loss showing to the last couple of years.

"We have the talent but we're not carrying over the ball," he said.

Desrosiers thinks the guys haven't been playing as a team and he's only been able to drive on a few key guys.

The team is still confident they can pull together and get the plays they've been doing in practice to translate onto the field.

Cranston's next game is on every game on Oct. 14 against Fleming College in Leamington.

Richard Weiss receives the ball for the Cranston Crusaders during a game against the Fleming Knights, Oct. 1. The game ended with a 11-0 victory for Fleming.
